Note: This table presents unduplicated counts of individuals and households who experienced homelessness and received rapid rehousing services in the 2015 fiscal year. "Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program.

"Unsheltered" refers to individuals living outdoors or in places not intended for human habitation, such as a park or the beach. "Sheltered settings" category includes emergency shelters, transitional housing, mental health and medical hospitals, prisons, substance abuse facilities, and the YMCA.

"Doubled up" refers to individuals living in a family member's or friend's room, apartment, or house.

Note: This table presents unduplicated counts of individuals and households who experienced homelessness and received shelter program services in the 2015 fiscal year. "Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program.

"Unsheltered" refers to individuals living outdoors or in places not intended for human habitation, such as a park or the beach. "Sheltered settings" category includes emergency shelters, transitional housing, mental health and medical hospitals, prisons, substance abuse facilities, and the YMCA.

"Doubled up" refers to individuals living in a family member's or friend's room, apartment, or house.

"Prior Living Situation" refers to the place where a person lived and slept most of the time prior to entering the program. "Unsheltered" refers to individuals living outdoors or in places not intended for human habitation, such as a park or the beach. "Sheltered settings" category includes emergency shelters, transitional housing, mental health and medical hospitals, prisons, substance abuse facilities, and the YMCA. "Doubled up" refers to individuals living in a family member's or friend's room, apartment, or house.

## Note:

- Most of the subpopulations presented in the table are not mutually exclusive, except for the “persons in adult-only households” and “persons in households with children” groups. The group of “unaccompanied young adults aged 18–24” is a subgroup of “persons in adult-only households”. Chronically homeless families are those with at least one adult family member who is chronically homeless.
- The number of homeless service system users is an unduplicated count of individuals who accessed emergency shelter, transitional housing, outreach, and/or rapid rehousing services in the 2015 fiscal year.
- Newcomers are those who accessed the homeless service system for the first time in FY 2015 and for whom no previous intake records could be found in the Statewide Homeless Management Information System (HMIS) since FY 2007.
- The number of permanent housing exits is an unduplicated count of individuals who exited the homeless service system to a permanent housing destination in FY 2015. The percentage of permanent housing exits was calculated out of the total number of individuals who exited the homeless service system in FY 2015.
- Returning to the homeless service system is defined as enrolling in a homeless service program within 12 months of exiting to permanent housing. Data included all system “leavers” from FY 2014 who left for permanent housing and returned to the homeless service system within 12 months. Data were not calculated for small subpopulations, as indicated in the cells with the symbol (..).
- The length of enrollment is based on total number of unduplicated days each person enrolled in any homeless programs during the reporting period. For active enrollments that started in previous years, the number of days enrolled prior to the reporting period is also counted. Median and 5% trimmed mean are presented. The 5% trimmed mean is calculated from 90% of data points after excluding the lowest 5% and highest 5% of data in order to reduce the impact of outliers on data.

Persons in households with children	116	152	137	104	135	104

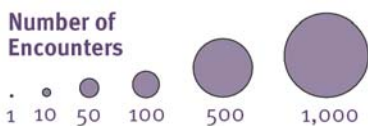

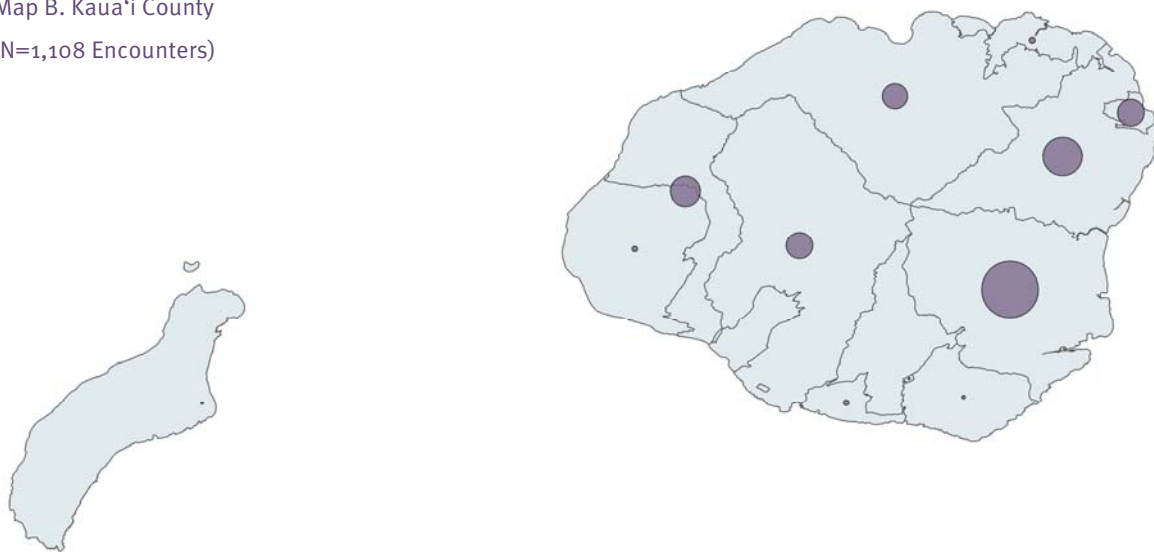

*Note: The length of enrollment for “any programs” is based on total number of unduplicated days each person enrolled in any homeless programs during the reporting period. For active enrollments that started in previous years, the number of days enrolled prior to the reporting period is also counted. Data for a specific program type accounted for the unduplicated number of days each person was enrolled in the program. This measure is a snapshot of the current homeless service system. It did not count any program enrollments that ended in previous years. As a result, it does not represent the total length of time individuals were enrolled in programs. Median and 5% trimmed mean are presented in the table. The 5% trimmed mean is calculated from 90% of data points after excluding the lowest 5% and highest 5% of data in order to reduce the impact of outliers on data.*

# Figure 1. Service Encounters of Homeless Outreach Programs by Zip Code Area, FY 2015

Map A. City and County of Honolulu  
(N=31,992 Encounters)

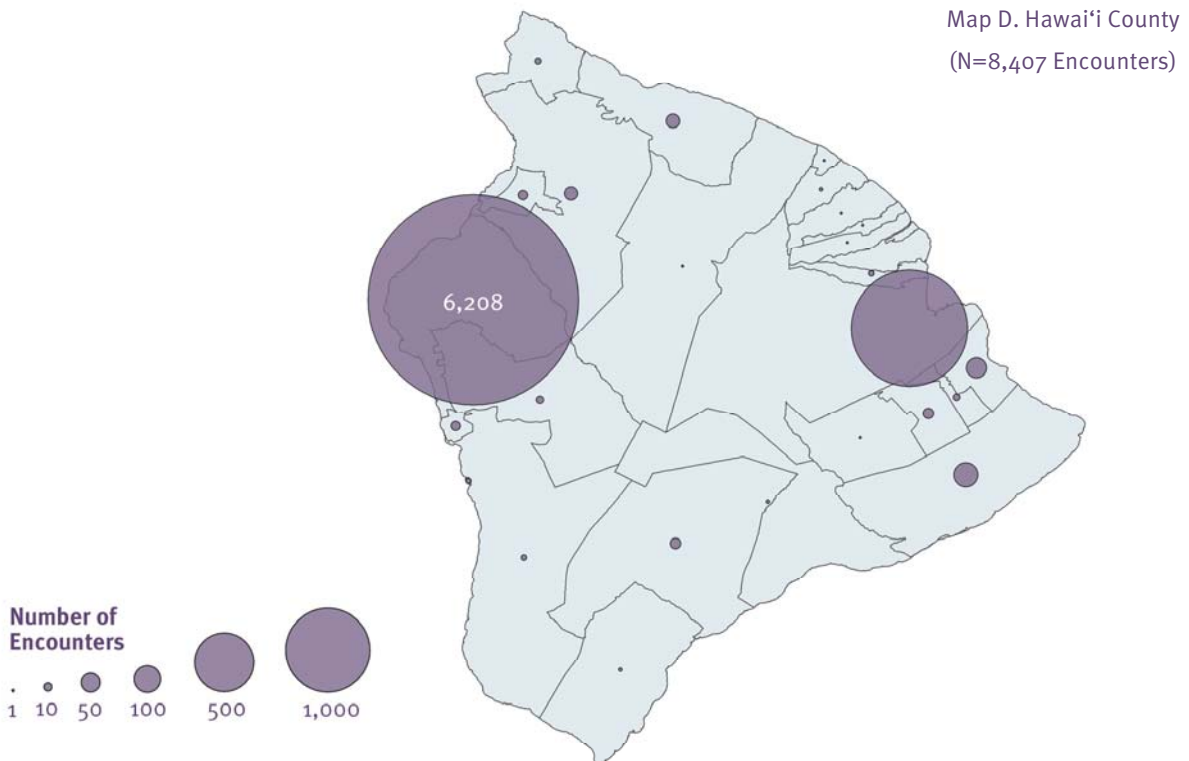

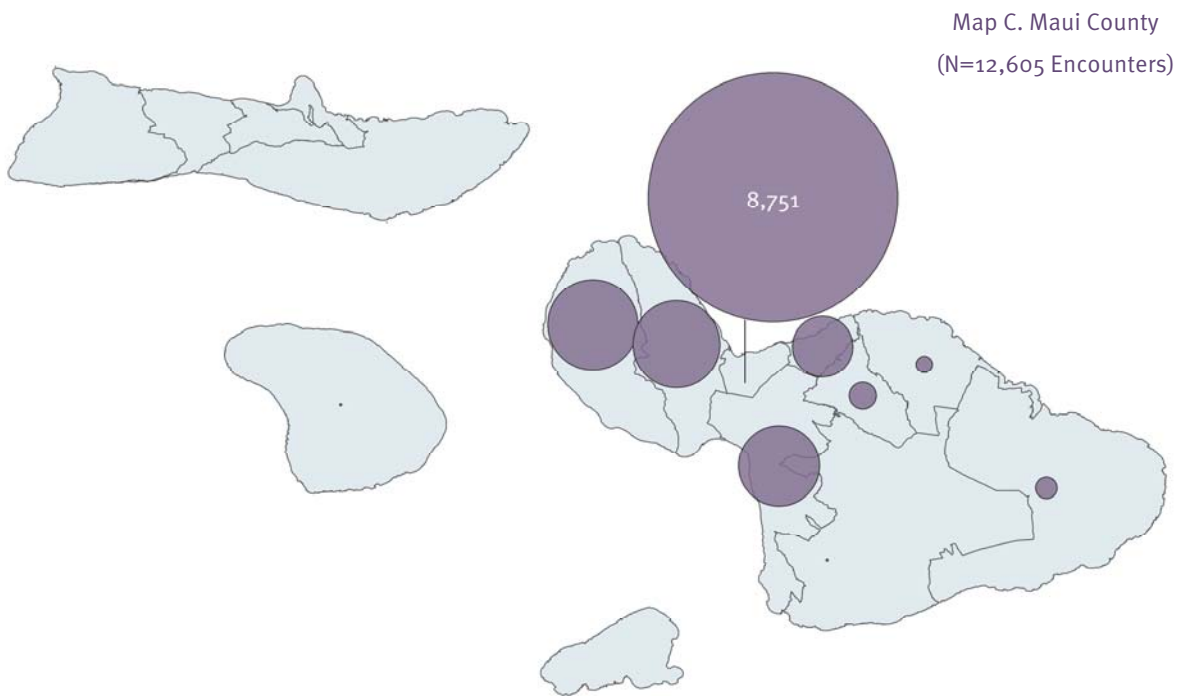

Map B. Kaua'i County  
(N=1,108 Encounters)

Note: (Maps A & B) In FY 2015, homeless outreach programs reported a total of 54,112 service encounters with valid zip code information. Of which 31,992 (59.1%) service encounters took place on O'ahu, where the majority of them were reported in zip code 96816 (Kaimukī, Palolo, Wai'alaie, Kāhala), and zip code 96792 (Wai'anae, Mākaha, Mā'ili) neighborhoods. In Kaua'i County, there were 1,108 service encounters (2.0% of the state total), and the highest number of encounters occurred in zip code 96766 (Līhue, Hanamā'ulu, Puhi) neighborhood.

(Continued) Figure 1. Service Encounters of Homeless Outreach Programs by Zip Code Area, FY 2015

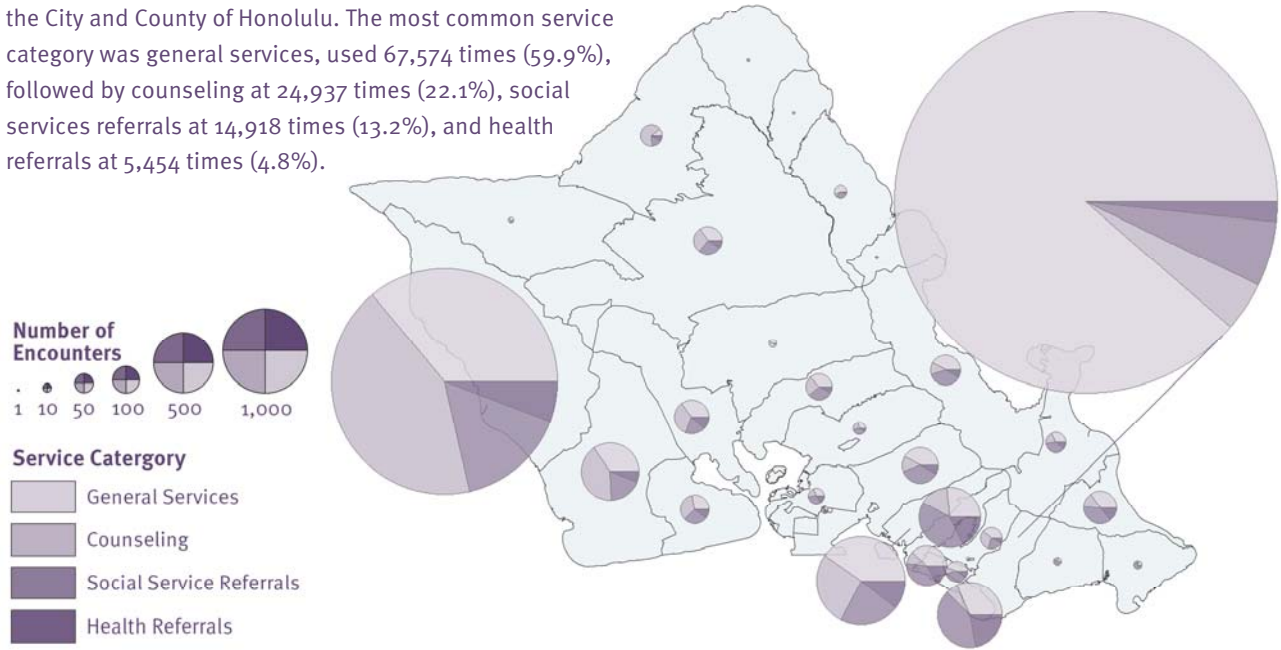

Note: (Maps C & D) In Maui county, there were a total of 12,605 service encounters (23.3% of the state total), and zip code 96732 (Kahului) was the neighborhood with the largest number of encounters. Hawai'i County reported 8,407 service encounters (15.5% of the state total), and the majority of these encounters took place in zip code 96740 (Kailua-Kona) neighborhood in FY 2015.

## Figure 2. Types of Homeless Outreach Services Utilized by Zip Code Area, FY 2015

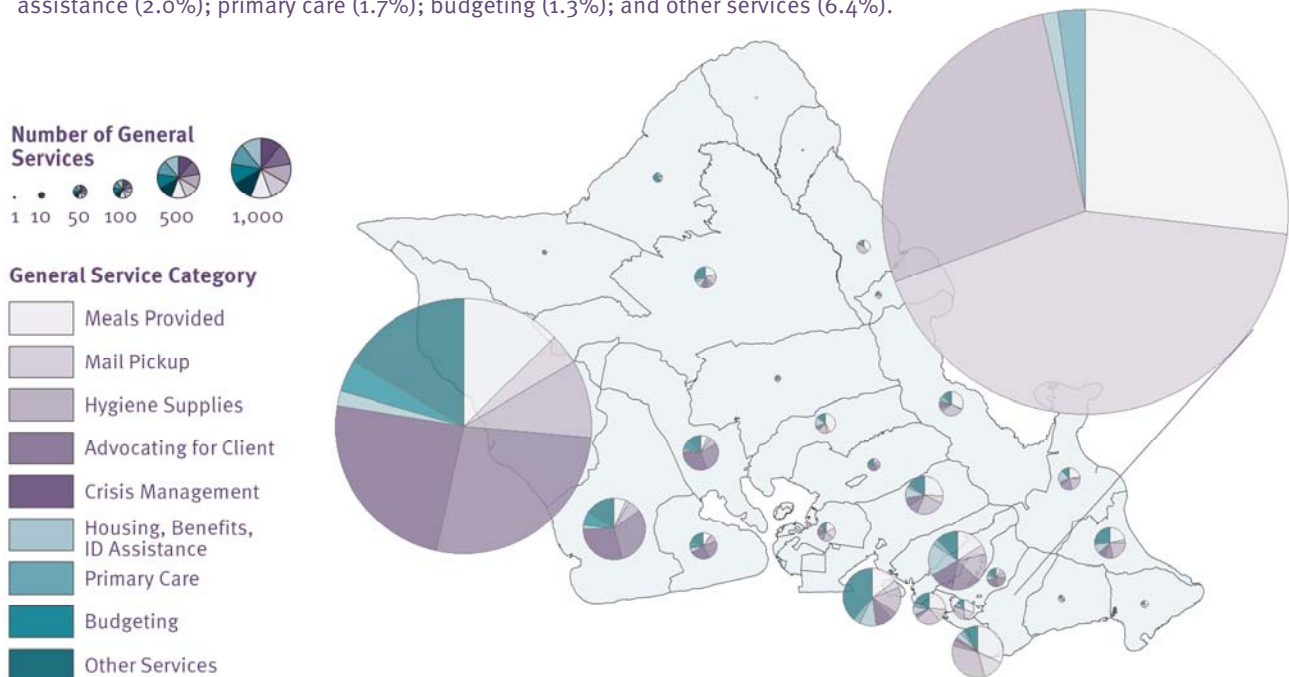

### Map A–1. City and County of Honolulu: All Services

In FY 2015, a total count of 112,883 services were utilized in the City and County of Honolulu. The most common service category was general services, used 67,574 times (59.9%), followed by counseling at 24,937 times (22.1%), social services referrals at 14,918 times (13.2%), and health referrals at 5,454 times (4.8%).

### Map A–2. City and County of Honolulu: General Services

Of the total 67,574 count of general services used in FY 2015, about three fourths were services such as mail pick up (29.0%), food/meals (22.1%), and hygiene supplies (21.6%). The remaining services included advocating for clients (8.4%); crisis management (7.5%); housing, benefits and ID assistance (2.0%); primary care (1.7%); budgeting (1.3%); and other services (6.4%).

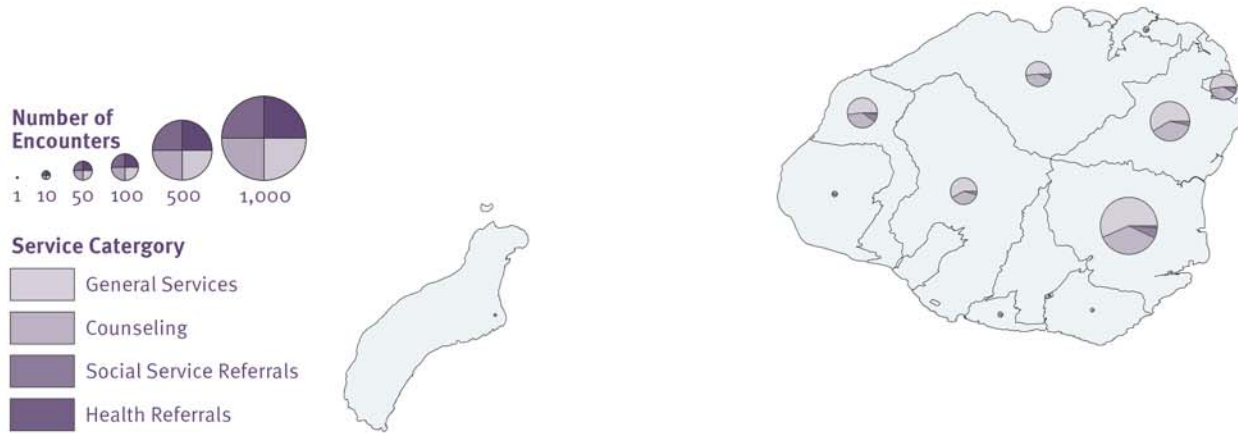

Note: Map 1 shows the types and numbers of outreach services used. The slices of the pie represent the relative sizes of service categories utilized by clients in a zip code area where service encounters took place. One or more services may be reported per encounter. The size of the pie is in proportion to the number of encounters reported. Map 2 presents the number of general services by detailed types in pie charts, where the size of the pie is in proportion to the total number of general services utilized.

**(Continued) Figure 2. Types of Homeless Outreach Services Utilized by Zip Code Area, FY 2015**

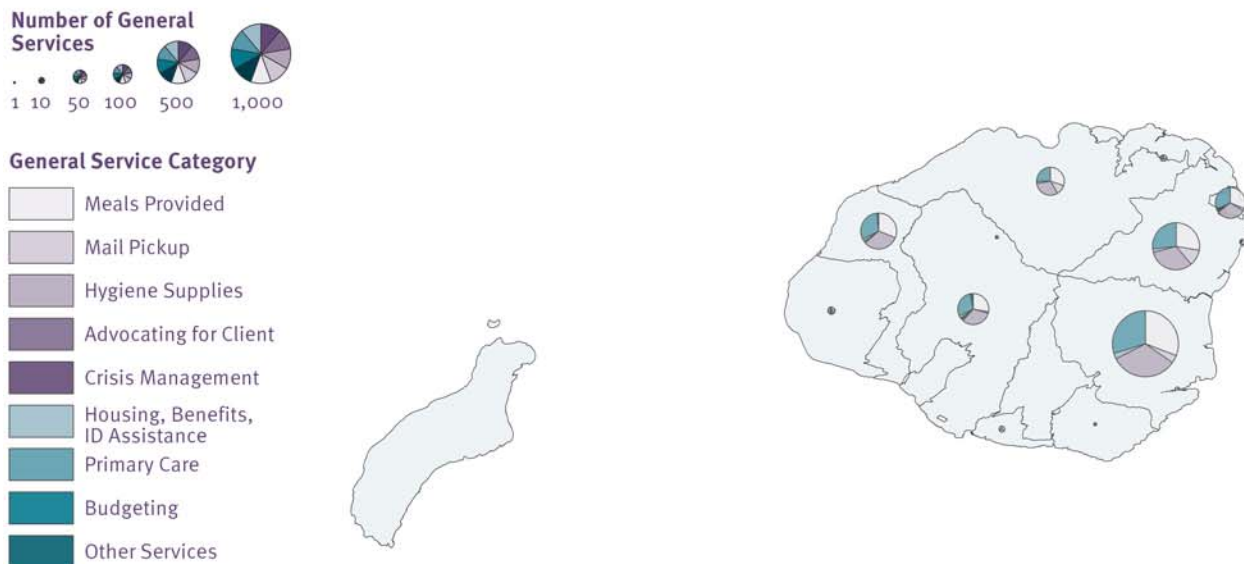

**Map B-1. Kaua'i County: All Services**

A total count of 5,435 services were utilized in Kaua'i County in FY 2015. The two most common outreach services were general services, provided 3,005 times (55.3%), and counseling services, at 2,033 times (37.4%). Social service referrals (70 times) and health referrals (327 times) comprised only 7.3% of the total.

**Map B-2. Kaua'i County: General Services**

In FY 2015, outreach programs in Kaua'i County provided a total count of 3,005 general services. The top three common services were hygiene supplies (31.4%), food/meals (29.4%), and primary care (28.5%). Other general services were less common, such as mail pick up (5.2%); housing, benefits, and ID assistance (2.5%); advocating for clients (1.1%); crisis management (0.8%); budgeting (0.1%); and other (1.1%).

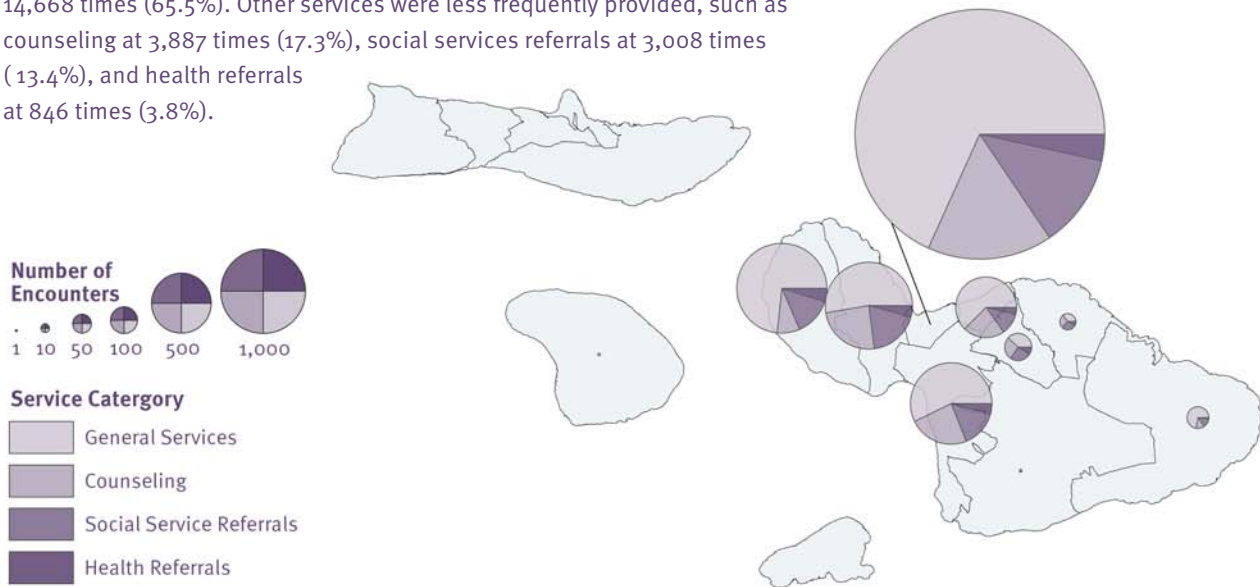

*Note: Map 1 shows the types and numbers of outreach services used. The slices of the pie represent the relative sizes of service categories utilized by clients in a zip code area where service encounters took place. One or more services may be reported per encounter. The size of the pie is in proportion to the number of encounters reported. Map 2 presents the number of general services by detailed types in pie charts, where the size of the pie is in proportion to the total number of general services utilized.*

**(Continued) Figure 2. Types of Homeless Outreach Services Utilized by Zip Code Area, FY 2015**

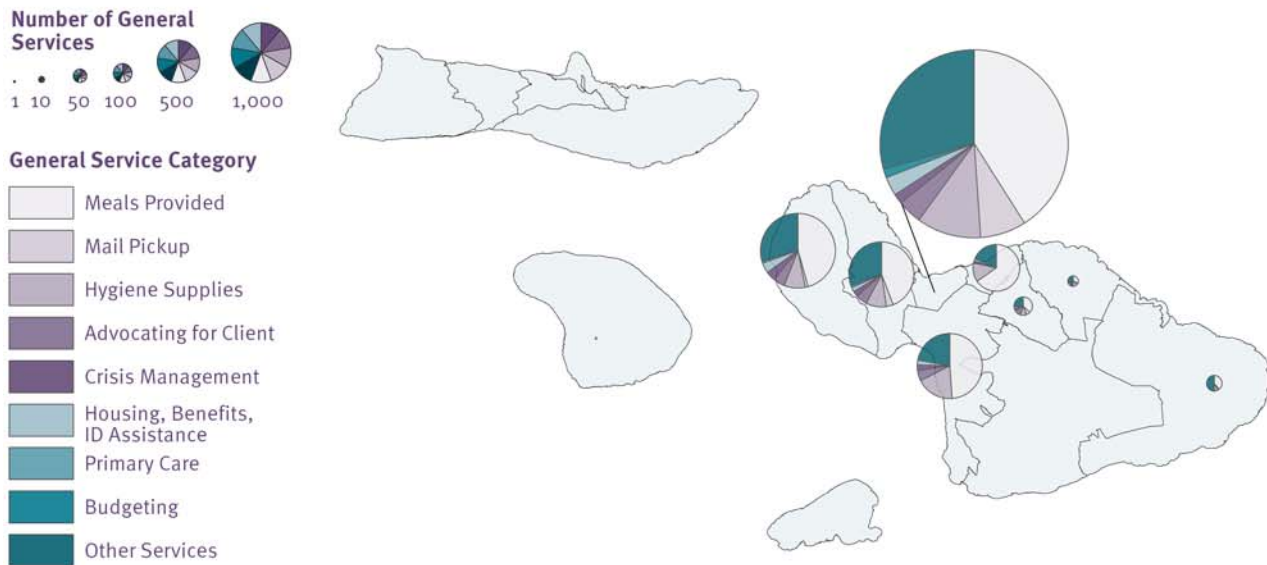

**Map C-1. Maui County: All Services**

Maui’s outreach programs delivered a total count of 22,409 services in FY 2015. The most common type of service was general services—provided 14,668 times (65.5%). Other services were less frequently provided, such as counseling at 3,887 times (17.3%), social services referrals at 3,008 times (13.4%), and health referrals at 846 times (3.8%).

**Map C-2. Maui County: General Services**

A total count of 14,668 general services were delivered in Maui during FY 2015. Food/meals were provided 8,570 times, representing 43.0% of the total general services. A small percentage of general services were hygiene supplies (11.4%); mail pick up (6.0%); advocating for clients (4.4%); housing, benefits, and ID assistance (3.2%); crisis management (2.1%); budgeting (1.4%); and primary care (0.1%). A high percentage of general services, 28.4%, were reported as “other services”.

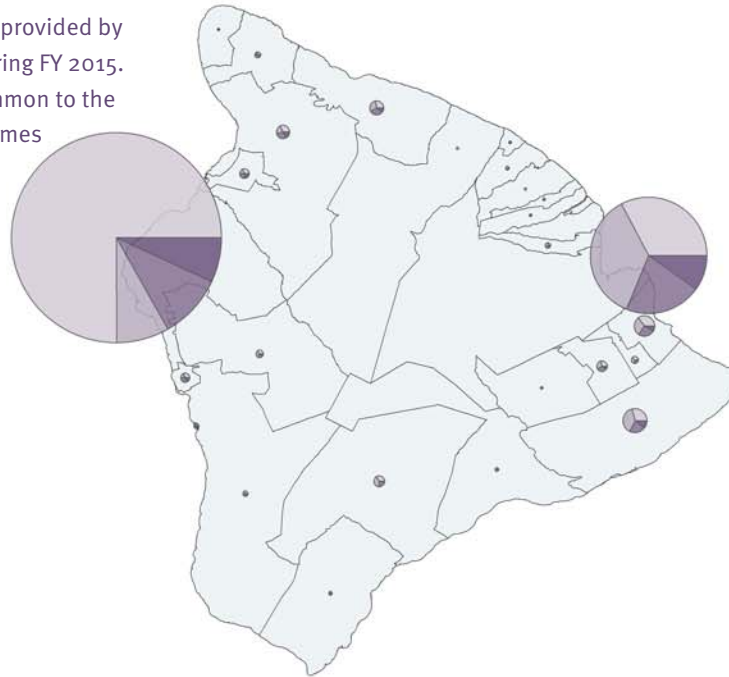

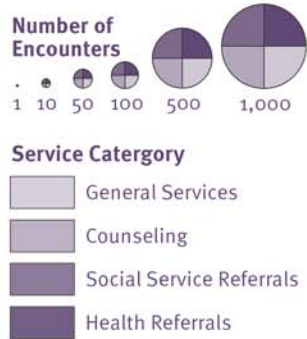

*Note: Map 1 shows the types and numbers of outreach services used. The slices of the pie represent the relative sizes of service categories utilized by clients in a zip code area where service encounters took place. One or more services may be reported per encounter. The size of the pie is in proportion to the number of encounters reported. Map 2 presents the number of general services by detailed types in pie charts, where the size of the pie is in proportion to the total number of general services utilized.*

**(Continued) Figure 2. Types of Homeless Outreach Services Utilized by Zip Code Area, FY 2015**

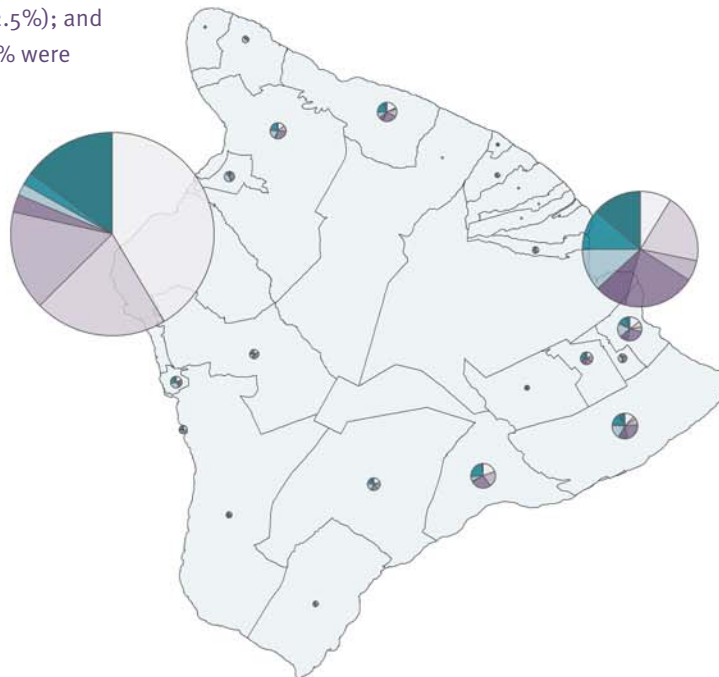

**Map D-1. Hawai'i County: All Services**

A total of count of 29,549 services were provided by outreach programs in Hawai'i county during FY 2015. The types of services, from the most common to the least, were: General services at 16,180 times (54.8%), counseling at 6,193 times (21.0%), social services referrals at 4,680 times (15.8%), and health referrals at 2,496 times (8.4%).

**Map D-2. Hawai'i County: General Services**

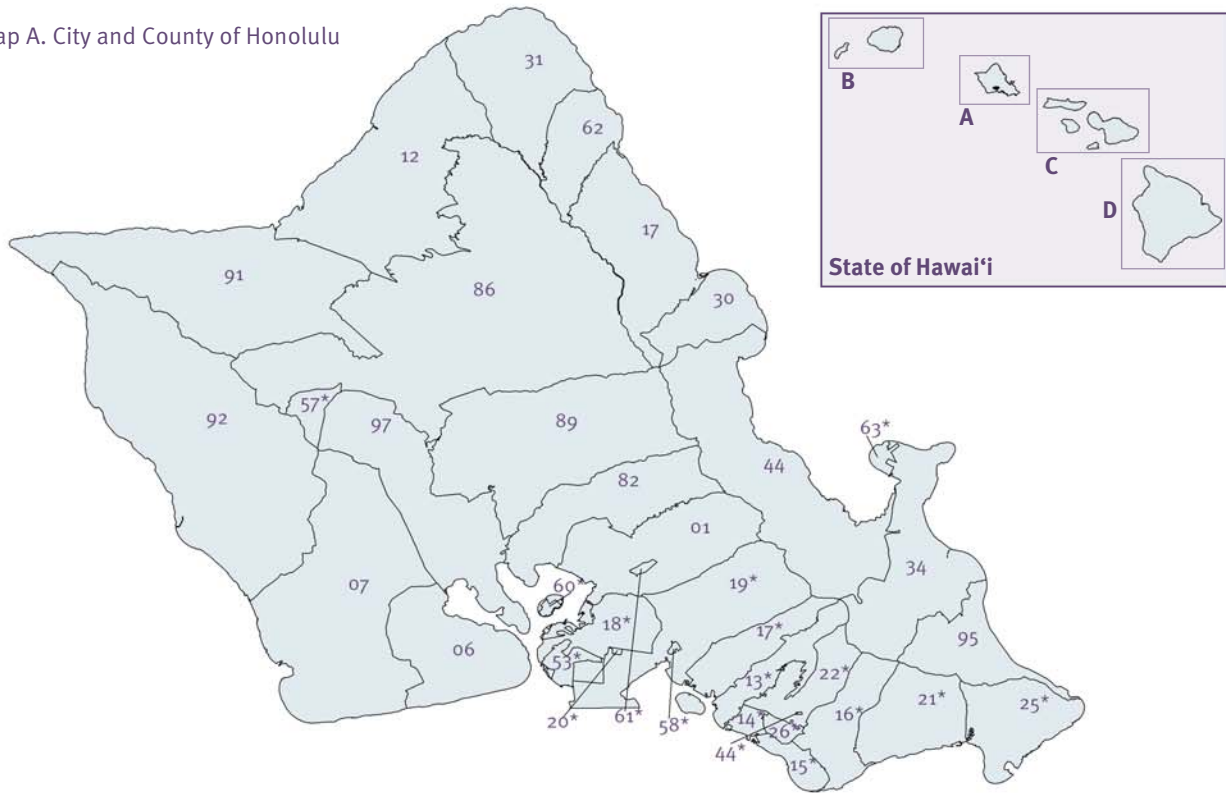

The most common general service was providing food/meals—accounted for one third (33.0%) of the 16,180 times of general services provided in Hawai'i County during FY 2015. Another third were mail pick up (19.7%) and hygiene supplies (13.4%). The following services were less frequently used: Advocating for clients (7.5%); budgeting (4.8%); housing, benefits and ID assistance (4.7%); crisis management (2.5%); and primary care (0.4%). The remaining 14.0% were “other services”.

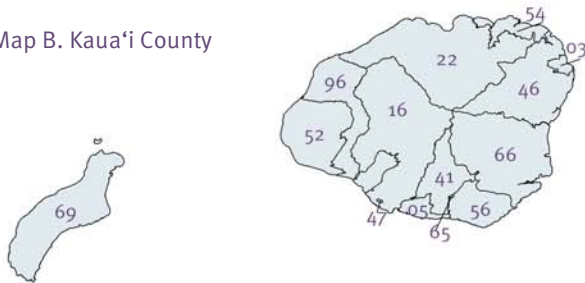

*Note: Map 1 shows the types and numbers of outreach services used. The slices of the pie represent the relative sizes of service categories utilized by clients in a zip code area where service encounters took place. One or more services may be reported per encounter. The size of the pie is in proportion to the number of encounters reported. Map 2 presents the number of general services by detailed types in pie charts, where the size of the pie is in proportion to the total number of general services utilized.*
